The man is on the right, wearing a white long-sleeved shirt and light-colored shorts, with his arm around her. They are both looking towards the camera. FLEXIBLE VILLA RENTAL

Owners who are not in residence for much of the year can take advantage of the optional Fairmont Residences villa rental programme.

Owners of Fairmont Residences who wish to lease or rent their residence must do so through the rental programme operated by Fairmont.

Owners of a Fairmont Estates property may rent independently subject to the terms and conditions of their rental management agreements.

The programme offers great flexibility, with owners having exclusive use of their villa for as many as 344 nights each year, including 14 guaranteed nights during the peak

seasons, which runs from mid-December to early January and over the Easter fortnight.

The hotel does not offer a guaranteed rental income (yield), however, owners who wish to combine personal use with rental income can help offset the cost of ownership, all without interfering with your family's enjoyment of the home. In order to guarantee personal usage during preferred weeks of the year, owners are encouraged to confirm the periods they wish to block out their villa from the rental programme by giving the hotel as much advanced notice as possible.

Participants in the rental programme receive 50% of net rooms rental revenue.³
